

Join the
North Fork Alliance
in its fight against
youth drug and alcohol use by:

- Enhancing partnerships to educate, support and keep North Fork children and families resilient against drug and alcohol abuse.
- Communicating to the North Fork community new data that highlights the substance use problem.
- Striving to move the community norm away from an environment that supports easy youth access to drugs.
- Building dialogue between parents and youth about substance use.
- Presenting fun recreational activities as alternatives to substance use.
- Reaching at-risk North Fork individuals who often lack transportation and access to services.
